When it is known that its power to strengthen the system and build up the body is why Father John's Medical ocures colds and all throat and hung troubles, it will be understood why it is so valuable as a tonic and for driving the limpurities out of the blood. It feeds the tissues and makes strength. All disease is due to a rundown condition of the body, unhealthy dissue, blood polsoned with impurities, and general weakness. While we recommend Father John's Medicine for a number of ailments—in the cure of which it has always been successful, as those who endorse it will tell you—you must understand and remember that all these wills are of the same kindred or family; that they all come from the same source or cause, as stated above. The principle of this medicine is simple. It furnishes the food that the body requires, and strengthens each organ at that it can do its work—that is how the system is cleared of the impurities and poisonous waste matter, and it supplies bodily warmth and vitality. Its ingredients are the same kind of food and nourishment that blood end tissue are made of—pura and wholesome.
